About Us

A wedding can be looked at as a theatrical event. You have a cast: wedding party, family & friends. You have behind-the-scene people: photographer, videographer & caterer. Everyone is looking for direction.

Sanders Sound FX can provide that direction. SSFX has been involved in the Mobile DJ business since 1998. We have provided entertainment for weddings as well as events from small birthday parties to large company Christmas celebrations. SSFX strives not to be the biggest, but the best entertainment value in the area.

Our goal is not only to help your party come to life but help organize the entire event. No worries, no headaches on what happens next. No running around trying to coordinate all the details yourself. Just sit back, relax, socialize, and have the time of your life. Wedding memories will last a lifetime.

Trust someone with experience.
